

968 #06

## PORSCHE'S 968

The 968 was introduced in the fall of 1991 as a 1992 model. It was the first car of the 924/944/968 family of Porsches to be built at the Stuttgart-Zuffenhausen plant instead of the VW plant at Neckarsulm. Production of the 968 ended after 12,780 examples were constructed between 1992 and 1995.
